

Setup Guide

Connecting to In-Facility Screens

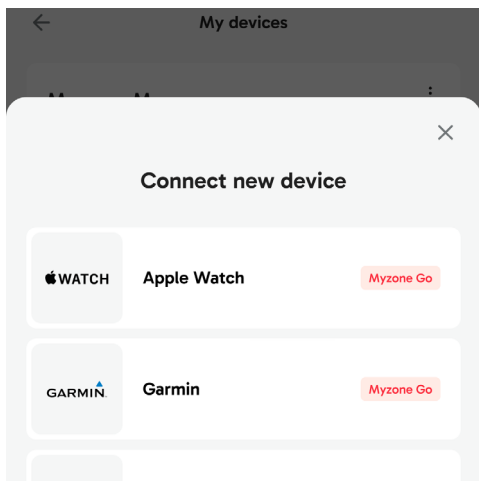

For further technical assistance, please speak with a member of the team

01 Navigate to Devices & Integrations Page

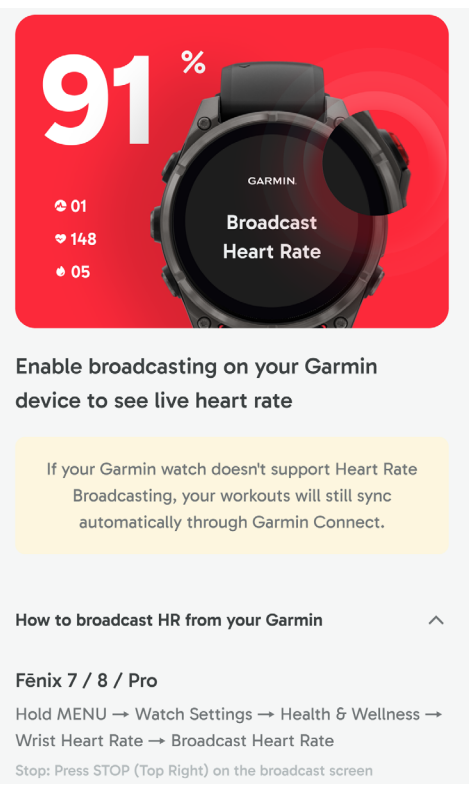

02 Select Broadcast HR on your Garmin device

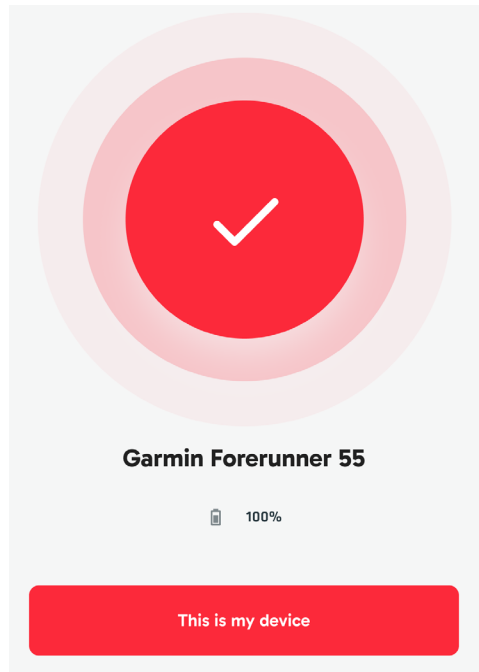

03 Enable BLR broadcasting

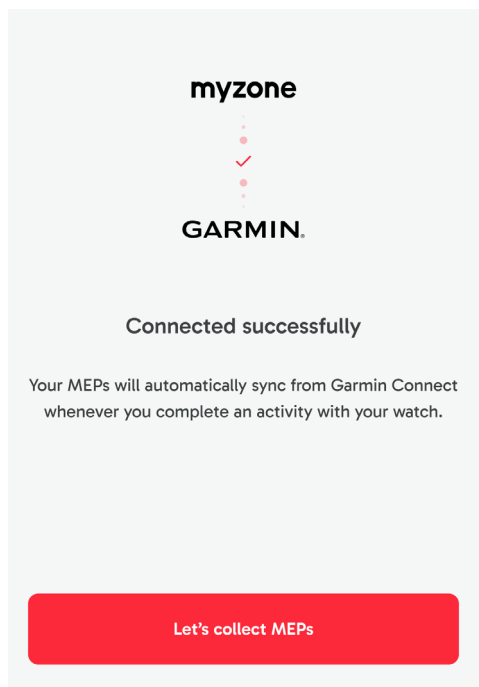

Instructions are listed for each device*

04 Searching For Device

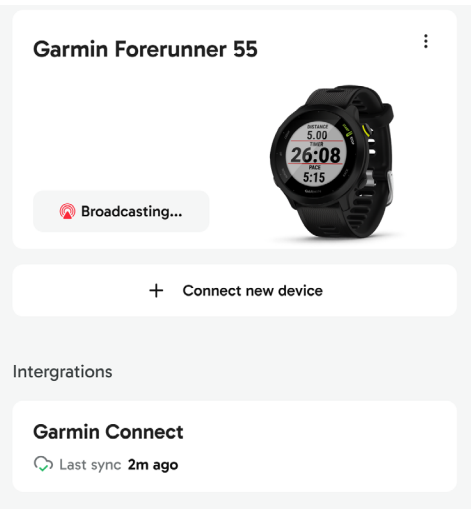

05 Connected Successfully

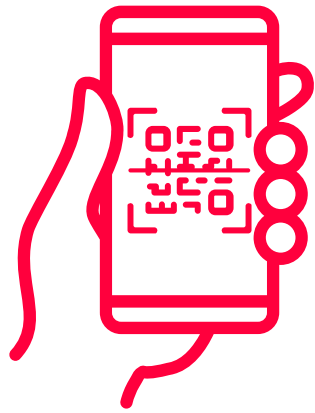

06 Devices & Integrations Page

Your Garmin should now show as Broadcasting

07 Scan the in-facility QR Code to feature on the screens

Useful tips:

- Follow instructions for each device as listed on the app (03)
- Next time you want to use Garmin on the screen - simply enable Heartrate Broadcasting again and it will connect automatically.
- Make sure to turn off Heartrate Broadcasting after your workout to save battery life

*Not all devices support this feature, check your device compatability via support.garmin.com
